Nonviolent Communication

Manifesto 2000 (six principles)

- **Respect the life and dignity of each human being without discrimination or prejudice;**
- **Practise active non-violence, rejecting violence in all its forms: physical, sexual, psychological, economical and social, in particular towards the most deprived and vulnerable such as children and adolescents;**
- **Share my time and material resources in a spirit of generosity to put an end to exclusion, injustice and political and economic oppression;**
- **Defend freedom of expression and cultural diversity, giving preference always to dialogue and listening without engaging in fanaticism, defamation and the rejection of others;**
- **Promote consumer behaviour that is responsible and development practices that respect all forms of life and preserve the balance of nature on the planet;**
- **Contribute to the development of my community, with the full participation of women and respect for democratic principles, in order to create together new forms of solidarity.**
